

AMENDMENTS TO THE CLAIMS

The listing of claims below replaces all prior versions of claims in the application.

1. (Currently Amended) An antiseptic disinfectant containing
~~1,2-alkanediol with 5-10 carbons~~ one or more materials selected from a group consisting
of 1,2-heptanediol, 1,2-nonanediol, and 1,2-decanediol, and
one or more materials selected from ~~a group~~ the group consisting of thymol, eugenol,
citronellal, terpinyl acetate, citronellol and β -pinene.

2. (Currently Amended) An antiseptic disinfectant ~~described in claim 1, containing 1, 2-~~
alkanediol with 5-10 carbons, and one or more materials selected from the group of thymol,
citronellal, terpinyl acetate, citronellol and β -pinene ~~wherein that said 1,2-alkanediol is 1,2-~~
~~hexanediol and/or 1,2-octanediol.~~

3. (Currently Amended) An antiseptic disinfectant described in claim ~~1~~ or 2, wherein that
said 1,2-alkanediol is 1,2-octanediol.

4. (Currently Amended) Cosmetics and toiletries ~~containing the antiseptic disinfectant~~
~~described in claim 1~~ comprising:

a cosmetically effective agent,

1,2-alkanediol having 5-10 carbons, and

one or more materials selected from a group of thymol, eugenol, citronellal, terpinyl
acetate, citronellol and β -pinene;

wherein said cosmetics are suitable for use on humans or animals.

5. (Currently Amended) Cosmetics and toiletries ~~containing the antiseptic disinfectant described in claim 2~~ of claim 4, wherein said 1,2-alkanediol is 1,2-hexanediol and/or 1,2-octanediol.

6. (Currently Amended) Cosmetics and toiletries ~~containing the antiseptic disinfectant described in claim 3~~ of claim 4, wherein said 1,2-alkanediol is 1,2-octanediol.

7. (Currently Amended) Medicine ~~containing the antiseptic disinfectant described in claim 1~~ comprising:

a medicinally effective agent,

1,2-alkanediol having 5-10 carbons, and

one or more materials selected from a group of thymol, eugenol, citronellal, terpinyl acetate, citronellol and β -pinene;

wherein said medicine is medicinally effective on humans or animals.

8. (Currently Amended) Medicine ~~containing the antiseptic disinfectant described in claim 2~~ of claim 7, wherein said 1,2-alkanediol is 1,2-hexanediol and/or 1,2-octanediol.

9. (Currently Amended) Medicine ~~containing the antiseptic disinfectant described in claim 3~~ of claim 7, wherein said 1,2-alkanediol is 1,2-octanediol.

10. (Currently Amended) Food ~~containing the antiseptic disinfectant described in claim 1,~~
comprising:

a nutritionally effective edible substance,

1,2-alkanediol having 5-10 carbons, and

one or more materials selected from a group of thymol, eugenol, citronellal, terpinyl
acetate, citronellol and β -pinene;

wherein said food is edible and non-toxic to humans or animals.

11. (Currently Amended) Food ~~containing the antiseptic disinfectant described in claim 2~~
of claim 10, wherein said 1,2-alkanediol is 1,2-hexanediol and/or 1,2-octanediol.

12. (Currently Amended) Food ~~containing the antiseptic disinfectant described in claim 3~~
of claim 10, wherein said 1,2-alkanediol is 1,2-octanediol.

13. (New) A method of using an antiseptic disinfectant, comprising the steps of
combining 1,2-alkanediol with 5-10 carbons with one or more materials selected
from a group of thymol, eugenol, citronellal, terpinyl acetate, citronellol and β -pinene to
form an antiseptic disinfectant; and

adding the antiseptic disinfectant to a cosmetic and toiletries, medicine or food.

14. (New) A method of using an antiseptic disinfectant described in claim 13, wherein said 1,2-alkanediol is 1,2-hexanediol and/or 1,2-octanediol.

15. (New) A method of using an antiseptic disinfectant described in claim 13, wherein said 1,2-alkanediol is 1,2-octanediol.

16. (New) A method of using a cosmetic and toiletries, comprising the steps of
providing an antiseptic disinfectant comprising
1,2-alkanediol with 5-10 carbons, and
one or more materials selected from a group of thymol, eugenol, citronellal,
terpinyl acetate, citronellol and β -pinene;
combining the antiseptic disinfectant with cosmetically effective agent to form a cosmetic
and toiletries to human or animal skin.

17. (New) A method of using a medicine, comprising the steps of
providing an antiseptic disinfectant comprising
1,2-alkanediol with 5-10 carbons, and
one or more materials selected from a group of thymol eugenol, citronellal
terpinyl acetate, citronellol and β -pinene;
combining the antiseptic disinfectant with a medicinally effective agent to form a
medicine; and
applying the medicine to human or animal skin or administering the medicine to human
or animal.

18. (New) A method of using a food, comprising the steps of
providing an antiseptic disinfectant comprising
1,2-alkanediol with 5-10 carbons, and
one or more materials selected from a group of thymol eugenol, citronellal,
terpinyl acetate, citronellol, and β -pinene;
combining the antiseptic disinfectant with a nutritionally effective edible substance to
form a food; and
feeding the food to human or animals.
